500 Self Contained Campervans

Rankers is a 100% NZ owned website and app which connects travellers with over 40 Campervan brands in the North and South islands of Aotearoa NZ.

We have successfully operated since 2007 and over this time has developed quality, long term relationships with each of these Campervan brands.

This means that we are in a position to quickly mobilise an extended fleet of 500 Self Contained campervans to be made available to Book a Marae. These would be ready to transfer onto appropriate marae locations where emergency and self isolating accommodation may be urgently required.

When you need a fast acting hand sanitiser...

AWS Group's new alcohol-free foaming hand sanitiser utilises the effective bacterial control properties of ANK Neutral Anolyte. This unique product is ideal for use in the food industry where alcohol based products are an issue; or if there is a need to avoid dry skin problems often associated with alcohol-based products.

Safe Practice

As a viable alternative to alcohol based products it demonstrates the following results when tested against the international standard AOAC 960:09 by an accredited laboratory.

Organism	LOG ₁₀ Decrease	% Decrease
E. coli	>5.9	>99.999
S. aureus	>5.2	>99.999
L. monocytogenes	>5.1	>99.999
Salmonella Menston	>6.3	>99.9999
C. albicans	>3.8	>99.9

Directions

Apply directly to hands from the dispenser. Lather well and then rub briskly over palms between fingers and then back of the hands. Repeat if necessary.

- ✓ **ALCOHOL-FREE**
- ✓ **CONFORMS TO HALAL REQUIREMENTS**
- ✓ **CONFORMS TO INTERNATIONAL AOAC 960.09 SANITATION STANDARD**
- ✓ **HAND SANITISER FOR FOOD PROCESSING HYGIENE AREAS**
- ✓ **GENTLE ON HANDS**
